STUDENT PERFORMANCE POLICY****Professional Development Guidelines**

Preparation for the professional practice of nursing requires more than the acquisition and application of knowledge. Therefore, in addition to the academic criteria listed in the progression in the major guidelines, the student must demonstrate:

- 1) appropriate interpersonal relations and communication with clients, peers, faculty and other health care personnel;
- 2) responsible fulfillment of class and practicum obligations, including provision of safe nursing care in the practicum setting; and
- 3) honesty and integrity in all academic and professional matters.

These expectations are reflected in the Undergraduate Professional Development Objectives and Graduate (MSN) Clinical Performance Criteria for each clinical nursing course. Failure to meet each Professional Development Objective will result in the student earning a grade of 0.0 for the course.

Faculty reserve the right to dismiss a student from clinical areas if the student is too ill, unprepared, or deemed to be a risk to patient safety. Dismissal from clinical for any reason, excluding student illness, is deemed unexcused, thus carrying the requisite grade consequence as described in the course syllabus.

**Nurse Practice Act/Michigan Criminal Code**

Students enrolled in the College of Nursing must conduct themselves so as to conform with the Nurse Practice Act of the State of Michigan. Students must also demonstrate maturity of judgment. In assessing the quality of a student's academic and clinical performance, the faculty takes account of the student's maturity of judgment, as well as the professional development guidelines noted above. The College of Nursing may refuse enrollment, discontinue enrollment, or refuse re-enrollment of any student who violates the Nurse Practice Act, or who, in the professional judgment of the faculty, exhibits a serious deficiency with respect to her or his maturity of judgment or conformity with the professional development guidelines.

**Academic/Professional Development Warning Status**

The Academic/Professional Development Warning Status serves as an intermediate step prior to dismissal from the major. The purpose of this status is to notify a student of the College's concern with his or her record of academic/professional performance. This status is designed as an intervention step to decrease the likelihood of ultimate dismissal from the major. Students will be sent a letter notifying them of their placement on academic warning status. The following events warrant placement on Academic/Professional Development Warning Status:
