STUDENT OPINION OF COURSES AND TEACHING

The purpose of this survey is to collect information that may help students in selecting courses and faculty instructors. Results will be available to members of the University community after all semester grades have been submitted. Regardless of the role that teaching assistants played in the course, only the instructor is to be evaluated on this survey.

Instructions to Instructor: This survey should be administered during the last two weeks of the course. The instructor should respect student privacy and confidentiality during completion of the surveys and should arrange to have them delivered to the department office by one of the students in the course.
