

# System for Student Evaluation of Teaching

UCUE September 21, 2017

# Current State

- Home grown system
  - 79 departments opted in
- Meets business needs
  - Minimum administrative effort
    - SIS integration
    - Automatically open and close based on semesters
    - Handles off-cycle courses
  - Security of student responses (confidential, not anonymous)
    - Result release after grades are submitted
- Not sustainable, minimally maintained
- Never complete to the original specifications
- Limitation on customization of survey

# Feedback and Needs

- Customization of questions
  - Modified and/or amend standard set of questions
  - Additional question types
- Support different modality of instructions
  - Lecture/Labs, Online/F2F
  - E.g. College of Music (Academic classes, ensembles, private instructions)
- Support formative assessment of teaching, faculty teaching development and scholarship of teaching (mid-course survey)
- Program/Department level reporting
- Mobile friendly
- Ability to provide incentive for completion of survey
- Opportunity for institutional research and benchmark with other institutions

# Discussions

- How can a change like this be roll out for our campus?  
UCFA review?
- Commercial vendor solutions? RFP?
- Leverage existing survey platform Qualtrics (add-on: Vocalize)?
- Priority of the project? Timeline?
- Others
