

MICHIGAN STATE UNIVERSITY

February 28, 2019

MEMORANDUM

TO: Dr. Mark Largent, Acting Associate Provost for Undergraduate Education and Dean of Undergraduate Studies

FROM: Dr. John Gaboury, Associate Provost for Academic Services, Enrollment Management, and Academic Initiatives

RE: Request for a Moratorium on Admission to the Pre dental Program
For Transmittal to the University Committee on Undergraduate Education (UCUE)

The request referenced above is being sent to you for action by the University Committee on Undergraduate Education (UCUE).

UCUE Response Requested:

Please ask the UCUE to consider the request referenced above and provide consultative commentary. Please mail the related materials referenced under the heading Attachments at the end of this memorandum to UCUE members.

The request is for a moratorium effective Spring 2020 through Spring 2023.

The UCUE alone will consider this request and its consultative commentary will be sent to the Provost for determination.

If you have any questions about this memorandum or the attached materials, please contact Joy Speas, University Curriculum Administrator, at 5-8420.

Thank you.

Attachments:

1. Request for a Moratorium form dated February 20, 2019; Pre dental Program and attachments.

Program Name: Predental Degree: NOHN Sequence Number: 3	Program Request ID: 3881
Effective Dates: Spring 2020 - Spring 2023 Moratorium	Status: Interim Initial Action:
Requested Date: 2/7/2019 9:10:21 AM	
<p>1. Department/School/College: 32604 College of Natural Science</p> <p>2. Name of Program: Predental</p> <p>3. Name of Degree: NOHN</p> <p>4. Type of Program:</p> <p>5. Effective Start Semester: Spring 2020</p> <p>Reason for Moratorium Request:</p> <p>Any of the current degree granting majors in the College of Natural Science or the remaining premajor, Natural Science - Exploratory (3915) 6. Reason for moratorium request: These major codes are premajors and require that students declare a degree granting major prior to achieving junior standing. This can be confusing to students and it also does not allow them to build connections effectively with the academic community. This has led to these majors having the lowest graduate rate of any students entering the College of Natural Science. By placing a moratorium on these majors, we can more effectively connect students to the academic community through the early declaration of a major. For those students who are underprepared to declare their major upon arrival, we will encourage them to declare Natural Science - Exploratory. This will allow the College to work with them to explore in a more strategic manner. We are requesting a three year moratorium, as students may only be in these premajors from 0-55 credits. They should progress beyond this typically in two years. The third year would allow for any students on alternate paths.</p>	

Effective End Term:

Spring 2023

Students who will be affected by the proposed change(s):

Freshmen and Sophomores in pre dental major

Suggested alternative major and major code for new admits:

Any of the current degree granting majors in the College of Natural Science or the remaining premajor - Natural Science - Exploratory (3915)

DEPARTMENT LEVEL APPROVAL STATUS

Approved: College of Natural Science
2/20/2019 11:16:48 AM by Shelby Gombosi for Richard Schwartz, Associate Dean

COLLEGE LEVEL APPROVAL STATUS

Approved: College of Natural Science
2/20/2019 11:17:07 AM by Shelby Gombosi for Gerard Mark Voit, Associate Dean

Fiscal Year (FY) counts are distinct student counts within the Summer, Fall, and Spring terms.
e.g. FY07=distinct student count within Summer 06, Fall 06, and Spring 07.
If a student changed majors within the FY, he/she is counted under both majors.

PREDENTAL PROGRAM:

Students who meet the requirements for admission to the University as freshmen and sophomores, as shown in the Undergraduate Education section of this catalog, may select the predental program in the College of Natural Science as their major preference. Students who are enrolled in the predental program are enrolled in the Neighborhood Student Success Collaborative, but receive academic advising through the college.

University regulations require that a student who has arrived at junior standing must select a major leading to a baccalaureate degree. The College of Natural Science does not offer a bachelor's degree program for predental students. Therefore, upon reaching junior standing, students who have been enrolled in the predental program must be admitted to a major in either the College of Natural Science or in another college in order to complete the requirements for a bachelor's degree, regardless of whether they have completed the requirements for the predental program.

Requirements for the Predental Program

	CREDITS
1. A total of 60 credits in courses in the natural sciences, mathematics, social sciences, humanities, and writing, including courses that are used to satisfy the University requirements and the courses that are listed below:	60
a. All of the following courses (31 credits):	
BS 161 Cell and Molecular Biology	3
BS 162 Organismal and Population Biology	3
BS 171 Cell and Molecular Biology Laboratory	2
BS 172 Organismal and Population Biology Laboratory ..	2
CEM 141 General Chemistry	4
CEM 161 Chemistry Laboratory I	1
CEM 251 Organic Chemistry I	3
CEM 252 Organic Chemistry II	3
CEM 255 Organic Chemistry Laboratory	2
PHY 231 Introductory Physics I	3
PHY 232 Introductory Physics II	3
PHY 251 Introductory Physics Laboratory I	1
PHY 252 Introductory Physics Laboratory II	1
Some dental colleges do not require Chemistry 252.	
b. 3 additional credits in general chemistry selected from the following courses: Chemistry 142, 152, and 162.	
c. 3 credits in a biological science course in addition to Biological Science 161, 171, 162, and 172.	
d. A minimum 3 credits in statistics.	
2. Students who are enrolled in the predental program should complete the University requirements for bachelor's degrees as described in the <i>Undergraduate Education</i> section of this catalog.	
<p>Students who are enrolled in the Predental Program in the College of Natural Science may complete an alternative track to Integrative Studies in Biological and Physical Sciences that consists of the following courses: Biological Science 161, 171, 162, and 172 and Chemistry 141. The completion of Biological Science 171 satisfies the laboratory requirement. Biological Science 161, 171, 162, and 172 and Chemistry 141 may be counted toward both the alternative track and the requirements for the predental program referenced in item 1. a. above.</p> <p>A Tier I writing course is included in the University requirements. Students who are enrolled in the predental program are required to meet the Tier II writing requirement approved for the student's major leading to the bachelor's degree.</p>
